

Dear Students and Colleagues,

### **Disease Basics and Medical Information of the Novel Coronavirus**

In view of the continuing spread of the novel coronavirus pneumonia, enclosed please find relevant [Disease Basics and Medical Information](#) prepared by the University Health Services Centre for your information.

Please note that the University Health Services Centre will maintain operation during the on-campus classes suspension period. Meanwhile, daily infection control measures in the clinic has been strengthened. And all patients or visitors must put on surgical masks when entering the clinic.

Besides, please be reminded that starting from February 8, all people who enter Hong Kong from the Mainland would be required to undergo a 14-day compulsory quarantine as per the order of the Department of Health. If fever or other symptoms is developed during the quarantine period, please call the hotline of the [Centre for Health Protection](#) (2125 1122) about the health condition, and hospital treatment would be arranged when necessary.
