

Dear students and colleagues,

**Preliminary positive COVID-19 staff infection case**

The University has received a report that a staff member was preliminarily tested positive for COVID-19.

According to information available, the colleague developed symptoms on 8 December, and the last working day was 7 December (Monday). The colleague had undergone COVID-19 tests on 10 and 12 December, and was preliminarily tested positive today.

The colleague worked in the Academic and Administration Building, and mainly stayed at desk with face mask on except when eating and not interacting with colleagues.

Upon receiving the case report, the Estates Office has immediately arranged thorough disinfection for the office concerned which will be reopened tomorrow.

The University is liaising closely with the Centre for Health Protection (CHP) for extra precautionary measures needed. We will update you on our follow up actions, if any, on the case as soon as possible.

I wish the colleague a speedy recovery. For enquiries, please contact the Estates Office at 3411 7997.

Christine Chow  
Vice-President (Administration) and Secretary
