

Suspension of All Outbound Student Activities Overseas

Dear Students,

Due to the spread of COVID-19 in various regions around the world, the University has made a difficult decision to suspend, until the end of this semester, all outbound student activities overseas with student participation organized and/or sponsored by the University. These activities include but are not limited to student exchanges and study abroad, research placements, internships, competitions, conferences, etc. This suspension would inevitably cause inconvenience to those of you who have been looking forward to these activities for some time. The University hopes to work with you to plan on other opportunities when the epidemic subsides.

As the situation is changing fast, you are advised to be mindful of the potential health risks and to take particular caution while planning your activities in the summer.

Wish you all good health during this difficult time.

Gordon Tang
Director of Student Affairs
