

Dear students and colleagues,

Confirmed COVID-19 student infection case

The University has received a report that a student from the Department of Geography was tested positive for COVID-19.

According to information available, the student has not returned to campus since early October. The student, who has a family member tested COVID-19 positive earlier, developed symptoms and was admitted to the hospital on 25 November. The student was tested positive for COVID-19 today (26 November).

As the student has not returned to campus since early October, and there has been no contact with any member of the university community outside campus, our preliminary assessment is that the case has no immediate health risk to the HKBU community.

Yet we will closely monitor the situation and alert you if there is any latest development with health implication to students and staff members.

I wish the student a speedy recovery. For enquiries, please contact the Estates Office at 3411 7997.

Christine Chow
Vice-President (Administration) and Secretary
