

Dear students and colleagues,

Amendment: Confirmed COVID-19 student infection case (9 January 2021)

Further to my email earlier, I would like to make a correction relating to the identity of the student. The confirmed COVID-19 student is an Associate Degree student with concentration studies in Visual Arts from the College of International Education (CIE).

The other facts in the email earlier remain valid. The University will closely monitor the situation and update you on our follow up actions, if any, regarding the case as soon as possible.

Christine Chow
Vice-President (Administration) and Secretary
