

Dear Students and Colleagues,

Friendly Reminder on Health Safety Measures during Holidays

While enjoying a great time with family and friends over the long weekend of Easter and Ching Ming Festival, you are reminded to stay vigilant for health safety and follow the advice from the Centre for Health Prevention (CHP).

When you are on campus, no matter you are at outdoor area or inside any of the campus buildings, **mask MUST be worn at all times**, except only when you are alone in your private dormitory room or office. You should also observe the legal limits on social gathering, and maintain proper social distancing and good personal hygiene all the time.

Wish you all good health and Happy Holidays.
