

Dear Students and Colleagues,

Ongoing hygiene measures on campus

The University has been implementing various hygiene measures to protect the well-being of the University community. Common facilities on campus are disinfected regularly and hand sanitisers are provided in common areas and facilities including lift lobbies, meeting rooms and classrooms. Thorough disinfection covering all walls and floors of circulation areas is carried out every 1.5 months. Please refer to the table attached for more details.

Disinfection robot

The University has received a donation of two disinfection robots recently and the robots will assist in conducting regular disinfection in common areas and facilities on campus.

Once again, you are reminded to keep on wearing masks and maintaining social distancing when you are staying on campus.

For further enquiries, please contact the Estates Office at 3411 5688 or by email at eo@hkbu.edu.hk.

Stay healthy!
